- Reliable, durable non-catalytic technology
- Easy to use ash disposal system
- Inside & outside combustion air capable
- Mobile home approved

## OPTIONS

- Temperature actuated 125 cfm variable speed blower
- Screen Door

## FUSION FINISHES

Choose from seven rich Porcelain Enamel colours or Stainless Steel or Metallic Black

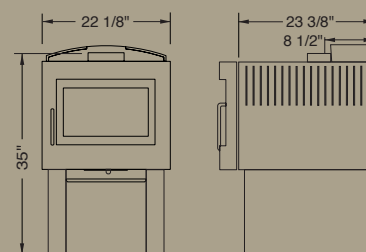

*\*Royal Blue available as premium colour*

European inspired – North American priced. Bigger than its European cousins, The Fusion delivers easier loading, clean, efficient heat and longer burn times with Pacific Energy’s proven Hi-Tech firebox.

Standing taller than most wood stoves, The Fusion gives you more view of the fire through its low-glare glass. The innovative design includes a wood storage chamber.

The Fusion is complemented by a Stainless Steel or Metallic Black finish or a beautiful selection of lasting porcelain enamel colours.

Heating Capacity	2,000 sq.ft.**	
HEAT OUTPUT	Cord Wood	72,000 BTU
	EPA Test Fuel	34,600 BTU
Efficiency	69.3%***	
Emissions	3.4 gm/hr.	
Log Size	18 inches Max.
